New York, Feb. 3.—George H. Fearens, general attorney for the Western Union Telegraph company, said yesterday of the upholding by the supreme court of acts of states in assessing telegraph and express companies of their franchises: These suits have been pending a long time, and they were brought simply to test the law. No large sum was involved in our cases, which involved the validity of the laws of Ohlo and Indiana. The amount was less than \$100,000. In the Indiana case the action was brought by the United States Express company to test the legality of the imposition of a penalty of 50 per cent on unpaid taxes. The Western union was made a formal party. The decision is understood to sustain the state law."

The first arrest was made today in this city, and it will be followed up, it is said, by the arrests of others in the

The man who was arrested in this city is Hamilton F. Coleman, cierk in the chief cierk's department in the general land office. He was arrested on a telegram from Washington. Over \$59,000 worth of stamps were found on his person. These stamps are known as periodical stamps. They ranged in value from I cent to \$60. A number of these sets of stamps are sent to each postmaster every year. When a publishing house presents 1,000 pounds of published matter, for instance, the postmaster gives it a receipt for the postage paid, and cancels stamps amounting in full value to that sum. These stamps are returned, cancelled, to have dead to the postmaster.

Coleman said he was innocent, that the stamps were his property, and that he could prove his innocence.
